FOODSERVICE WATER FILTRATION SYSTEM PRO SERIES MANIFOLDS

1-Stage
Model:
FS-HF1-M

2-Stage
Model:
FS-HF2-2M

3-Stage
Model:
FS-HF3-D2M

4-Stage
Model:
FS-HF4-D3M

5-Stage
Model:
FS-HF5-D3ML

Benefits

- Reduces chloramines, chlorine taste and odor, and other offensive contaminants that can adversely affect the taste of beverages.
- Improves the taste of fountain beverages and helps retain the drink's carbonation.
- Sub-micron filtration reduces dirt and particles as small as 1 micron in size.
- Reduces possible health contaminants such as Cryptosporidium and Giardia cysts.
- Protects drink system equipment from clogging, corrosion and abrasive wear.
- Patented cartridge system is simple, quick and easy. Internal filter parts are never exposed to handling or contamination. Patented quarter-turn connection allows for easy cartridge changes.

NEW COLDMASTER COOLCHECK

- Patent-pending technology allows you to quickly see when temperatures are no longer safe*
- Same great features as our standard Coldmaster products with the added element of color-changing technology
- Eliminates the guessing game behind food safety
- Unit holds food safely below 41° for 6-8 hours*
- Reduces waste by "telling" workers when food temperature is safe
- Eliminates the mess and inconvenience of ice
- FDA approved; dishwasher safe
- NSF Listed

SECURE SHIELD SCOOPS

- Unique ergonomic design prevents hands from coming in contact with ice or food
- Equals or exceeds standard scoop capacities and occupy less space
- Larger sizes can be used as scoops for dry ingredients
- Scoops sold individually or as a component of the sanitary scoop kit
- Easy to assemble and install kit includes minimal parts: scoop, holder, suction cups and 2 hanging brackets to accommodate ice bins of various thickness
- Dark blue color makes the scoop easy to find
- Disassembles in seconds for easy cleaning
- Reinforced edges for enhanced durability
- Durable polycarbonate material is dishwasher safe

HACCP MANAGER KIT

Cooper-Atkins newest innovation in thermocouple technology is the HACCP Manager™.

The 37100 is a handheld data-collecting instrument designed to simplify the recording of product temperatures and monitoring of corrective actions in foodservice environments. The HACCP Manager includes a state-of-the-art database system designed for reporting, analyzing and storing temperatures and allows data to be transferred between the thermocouple instrument and PC.

Features:

- Sets temperature limit alerts
- Records up to 3000 temperatures
- Allows customized corrective actions
- Creates custom checklists

Customize up to 300 menu items!

NOTIFEYE

A Cloud-Based Temperature Monitoring and Notification System

NotifEye™ is a cloud-based monitoring and notification system. Wireless humidity sensors detect incidents, monitor humidity limits and send data via gateways to the NotifEye system. The humidity sensors have a flexible antenna with a 250 to 300 ft wireless range. The sensor is set with user-defined parameters, to sleep, then wake-up in timed intervals and transmit data to the gateway. Alerts are triggered the moment a sensor is out of the set range and notifications are sent.

EZH2O BOTTLE FILLING STATION

Ideal for education, healthcare facilities, fitness clubs, and hospitality. EZH2O bottle filling station provides convenient hydration, reduces our dependency on plastic water bottles, provides a rapid fill water to quench thirst and help minimize disposable plastic bottle waste.

- The EZH2O bottle filling station fill rate* is 1.1-1.5 gpm; 3 times faster than a traditional drinking fountain
- One-handed operation allows for a quick fill between activities
- The electronic sensor provides touchless, sanitary operation; just place and fill
- Available as Filterless or with the WaterSentry® Plus 3000 gallon filter is included (NSF 42 & 53 certified for particulate, chlorine, taste & odor and lead reduction)
- Integrated Silver Agion Anti-microbial protects against mold and mildew growth
- Innovative Green Ticker™ counts the quantity of bottles saved from land fills

* Fill rate is 1.1 gpm for refrigerated units and 1.5 gpm for non-refrigerated units
