Who is Zink & Who is Affinity Group?

Zink Foodservice is a full portfolio rep group that specializes in Equipment, Supplies, and Furniture. Affinity Group is also a multi-line rep group but for food products. Each company represents industry-leading brands and provides valuable solutions to their customers.

In 2018, at our Louisville facility, we began sharing a test kitchen to solidify the connection between proper equipment and quality ingredients. In 2022, we underwent an extensive remodel of our offices, test kitchen, and showroom, and invite you to see the new space.
