## WARRANTY

#### INDOOR FURNITURE

GAR Products® warrants all standard indoor wood seating for a period of ten (10) years to be free from structural defects in frame material and craftsmanship under normal use and service, except for the Flair side chair, Baron side chair and our Lounge series. The Flair side chair has a three (3) year structural warranty. The Baron side chair and Lounge series will be warranted for one (1) year. Any finish will be warranted for a period of one (1) year to be free from defects under normal use and service, except for genuine teak, faux teak and Thai teak. These finishes and/or slats require periodic maintenance therefore are not covered by our warranty. Any woven or rope material will be warranted for a period of one (1) year to be free from defects under normal use and service. Glides are not covered under any waranty. This warranty does not include discontinued or closeout items. If there are exceptions to this warranty it will be noted on your order.

All chairs in the "Vida Collection Series" have a five (5) year structural warranty. Any finish will be warranted for a period of one (1) year to be free from defects under normal use and service. Glides are not covered under any warranty. If there are exceptions to this warranty it will be noted on your order.

#### **TABLE BASES**

GAR Products® warrants all standard indoor/outdoor steel and stainless steel table bases for a period of five (5) years to be free from structural defects in frame material and craftsmanship under normal use and service. All other bases will fall under a warranty of three (3) years to be free of structural defects under normal use and service. Any finish will be warranted for a period of one (1) year to be free from defects under normal use and service. This warranty does not include discontinued or closeout items. If there are exceptions to this warranty it will be noted on your order.

#### INDOOR TABLE TOPS

GAR Products® warrants all standard indoor tabletops for a period of one (1) year to be free from structural defects in material and craftsmanship under normal use and service. Any finish will be warranted for a period of one (1) year to be free from defects under normal use and service, except for genuine teak, faux teak and Thai teak. These finishes and/or slats require periodic maintenance therefore are not covered by our warranty. This warranty does not include discontinued or closeout items. If there are exceptions to this warranty it will be noted on your order.

#### **CUSTOM PRODUCT**

Custom order and/or designed product not otherwise identified explicitly in the product guide, is warrantied for a period of one (1) year to be free from structural defects in frame material and craftsmanship under normal use and service. Any finish will be warranted for a period of one (1) year to be free from defects under normal use and service, except for genuine teak, faux teak and Thai teak. These finishes and/or slats require periodic maintenance therefore are not covered by our warranty. Any woven or rope material will be warranted for a period of one (1) year to be free from defects under normal use and service. Glides are not covered under any warranty. If there are exceptions to this warranty it will be noted on your order.

#### INDOOR/OUTDOOR STANDARD PRODUCT

GAR Products® warrants indoor/outdoor seating for a period of three (3) years, with the exception of the Campaign folding chair, and the Baron side chair which GAR Product warrants for one (1) year, to be free from structural defects in frame material and craftsmanship under normal use and service. Any finish will be warranted for a period of one (1) year to be free from defects under normal use and service, except for genuine teak, faux teak and Thai teak. These finishes and/or slats require periodic maintenance therefore are not covered by our warranty. Any woven or rope material will be warranted for a period of one (1) year to be free from defects under normal use and service. Glides are not covered under any warranty. This warranty does not include discontinued or closeout items. If there are exceptions to this warranty it will be noted on your order.

#### **OUTDOOR TABLE TOPS**

GAR Products® warrants outdoor tabletops for a period of one (1) year to be free from structural defects in material and crafts-manship under normal use and service. Any finish will be warranted for a period of one (1) year, with the exception of the Max and Santorini tables which have no warranty, to be free from defects under normal use and service, except for genuine teak, faux teak and Thai teak. These finishes and/or slats require periodic maintenance therefore are not covered by our warranty. This warranty does not include discontinued or closeout items. If there are exceptions to this warranty it will be noted on your order.

## WARRANTY

#### **UPHOLSTERY MATERIAL**

All indoor and outdoor upholstery materials are covered solely by the corresponding upholstery manufacturer's warranty. This warranty does not include discontinued or closeout items. If there are exceptions to this warranty it will be noted on your order.

#### ANY CLOSEOUT OR DISCONTINUED PRODUCT

GAR Products® warrants most closeout or discontinued item for a period of one (1) year to be free from structural defects in frame material and craftsmanship under normal use and service. All iSiMAR products including the Bolonia, Olivo, Portofino, Palamos, Max and Santorini are not cover under any warranty. Any finish will be warranted for a period of one (1) year to be free from defects under normal use and service, except for genuine teak, faux teak and Thai teak. These finishes and/or slats require periodic maintenance therefore are not covered by our warranty. Any woven or rope material will be warranted for a period of one (1) year to be free from defects under normal use and service. Glides are not covered under any warranty. If there are exceptions to this warranty it will be noted on your order.

#### **OUTDOOR CUSHION COVERS**

GAR Products uses a special machine to shrink the foam when stuffing our outdoor cushions. Stuffing the covers by hand is very difficult. We cannot be responsible for damages to the cover, including the zipper, when ordering replacement covers only. We offer pricing on complete cushions if needed. Contact our Customer Service dept for a quote.

#### REPLACEMENT OR REPAIR

If a product is found to be defective in material or craftsmanship (indoor furniture) or found to have a structural defect (outdoor furniture) within the warranty period described, and if the product or component has been properly installed and maintained by the purchaser, GAR Products® will, at its option, replace or repair the product or component free of charge. GAR Products® warranty will not apply to any product which has been repaired or altered by anyone other than the manufacturer. The factory will not assume labor charges for unauthorized field repairs unless agreed upon in writing by the factory prior to the repairs being done.

#### LIMITS OF LIABILITY

The extent of GAR Products® liability is limited to the purchase price of the products sold. In no event shall GAR Products® be liable for injury, loss or damage, whether direct, consequential or incidental, to persons or property arising out of the purchaser's use, or of any inability to use said products.

#### **WARRANTY CLAIMS**

All furniture manufactured by GAR Products® contains an official production date label. Any product without the above mentioned label will void the product's warranty. This warranty does not apply to modified products or components or to those damaged by accident, abuse, neglect or misuse. Under the above mentioned warranty, any product that is damaged during use and the customer desires an inspection and/or repairs, the customer must contact the Warranty Department for a Return Authorization number and return the product to GAR Products® freight prepaid. After a thorough and fair inspection, if deemed defective, GAR Products® will stand behind the product and repair/replace the product at no charge. Additionally, the factory will reimburse the customer for any freight charges incurred (with valid proof of payment) from returning the product to GAR Products®. If the damage is determined to be due to improper use or undetected freight damage, the customer is fully responsible for the replacement/repair and freight of the product.

\*Please note: Any wood furniture items shipped to a storage facility of any kind must be stored in a climate controlled unit. No warranty claims will be accepted for any reason if not stored in a climate controlled facility. Proof that the unit is climate controlled will be required with any warranty claim. All orders must be inspected immediately upon delivery, even if shipped to a storage facility. No warranty claim will be accepted if the merchandise was not inspected upon delivery.\*

## **ABOUT OUR PRODUCTS**

#### **CONSTRUCTION MATERIALS**

All wood seating is manufactured from the highest quality European beechwood. GAR Products® supports factories which contribute to the regeneration of beechwood forests. All upholstered seat panels are made from plywood, not particle board. Any chair/barstool that utilizes a single lag bolt automatically gets a "p" brace or additional hardware to further secure its stability. Connections are glued, pinned and angled wherever possible.

#### DYMETROL™

Traditional methods of producing seat pads typically involve polyurethane foams and solid plywood seat panels. The use of Dymetrol™ provides a suspension system that offers comfort, ergonomics, and durability. We create the Dymetrol™ seat panel by attaching the 100% polyester material to a ½" plywood seat board with a hole cut out. This material is lightweight, with elastic spring and recovery. The combination of the modified seat panel, Dymetrol™ material, and polyurethane foam allows for a bottomless feel. This offers less tension and prolonged comfort in the seating experience. Dymetrol™ seats are not available on all models. Please check with our customer service department, or your GAR salesperson, to see if it is available on the model, you are interested in

#### PRODUCT TESTING

GAR Products® operates an in-house testing station that each chair/barstool design must pass before being added to the product line. All chair/barstool craftsmanship and hardware are tested for strength and durability in a simulated field environment. Please feel free to contact the factory directly for further information regarding testing procedures and standards.

#### PRODUCT DIMENSIONS

GAR Products® lists all chair/barstool width and depth as architectural dimensions. Architectural dimensions are based on how much space a particular item takes in an installation. All back, arm and seat height dimensions are actual. All chair dimensions noted are subject to variations of up to, but not limited to 1/2" depending on the style chosen by the customer. For further information please contact the GAR Customer Service Team.

#### FIRE CODE

GAR Products® manufactures all seating products to nationally recognized standards for fire retardancy of upholstered materials and foam padding. We use chemical compound polyurethane blends of polymer foams. These are available in a variety of specifications for different seating needs and for passing different flammability specifications.

All vinyls and fabrics shown on GAR Products® swatch cards are marked with detailed information as to which fire specifications they meet. Test data is available upon request. When an order is placed, the factory reserves the right to question if the correct fire specifications are being met. It is the customer's responsibility to inform the factory of all required specifications. If the customer chooses to ignore requirements, they will be asked to sign a waiver.

#### INDUSTRY DIMENSION STANDARDS

#### **INDOOR**

## CARE AND MAINTENANCE

#### WOOD CHAIRS AND BARSTOOLS

If chair/barstool shows any sign of structural failure (ie hardware), GAR Products® strongly recommends removing the piece from service immediately. Perform a thorough inspection of each chair/barstool once a month. Particular care should be taken in inspecting all joints for any loosening. One loose joint will put extra pressure on other joints, resulting in all joints loosening, which may eventually cause the chair/barstool to collapse. In the event that any joints become loose take the chair/barstool out of service immediately and repair prior to putting the chair/barstool back into service. A common cause of loosening joints is customers rocking backwards in the chair/barstool. Care should be taken while handling the chairs/barstools for any reason. The chairs/barstools should not be dropped on the floor from any height, particularly when cleaning the floor and placing the chair/barstool on a table/bar. If the chair/barstool is dropped it will result in the finish chipping and the chair/barstool possibly breaking. GAR Products® recommends cleaning all wood furniture with furniture polish. We suggest dark oil for mahogany, walnut etc., and lemon oil for light finishes such as natural and honey oak. Never clean any wood product (Chairs, Barstools, or Wood Table Tops) with any water based cleaning solution or water itself. Cleaning any wooden furniture with water or a water based solution will result in the grain and finish raising and peeling. We suggest educating all employees on how to clean the tables and chairs appropriately to ensure the longevity and beauty of the product. Chairs and barstools should not be subjected to extreme temperature, particularly heat or moisture near cooking facilities which will also result in the finish lifting and peeling. People should never stand on chairs/barstools in place of step stools or ladders. Please note that our bentwood chairs are a handmade product, with a certain amount of flexing when in use. In some cases, this will cause the lag bolts under the seat or attaching screws to loosen slightly.

#### **CAST IRON TABLE BASES**

Wipe clean with a damp cloth, very mild soap and water.

#### **CASTERS**

Castered chairs must be checked regularly to make certain the casters are secure on the legs; any loose caster must be serviced immediately to avoid leg splitting, damage to the chair or injury to the customer. GAR Products® shall not be responsible for this continued maintenance and shall not be liable for any injury or damage from failure of maintenance. Casters on GAR Products® chairs are not to be used for moving or pushing individuals; such use as a wheel chair which is dangerous and absolves GAR Products® of all liability. Casters may only be used on flat, uniform surfaces. Casters are not recommended for non-carpeted floors.

#### **UPHOLSTERY**

The only warranties that apply are those offered by the manufacturers of the upholstery.

#### VINYL

Clean all vinyls with a mild soap and water solution or a high grade automotive vinyl cleaner. Spills/spots require prompt attention. Some stains will become permanent if allowed to set.

Note: Vinyl fabrics are not resistant to denim dye, graffiti, and ink marks unless they are clearly marked with Writers Block technology.

#### **FABRIC**

Since we have a myriad of fabrics in our line, and these fabrics are made up a variety of materials, we suggest that the customer determine the correct composition of the fabric and clean with a substance recommended for the material according to directions. Cleaning fabric with the wrong substance may result in permanent damage.

#### **LEATHER**

Leather can be cleaned with mild saddle soap.

#### **FAUX LEATHER**

Protect the faux leather from direct sunlight and sources of heat to prevent color fading. For general cleaning only use a dry soft cloth. Never rub the stains. Never use the agents containing benzene and other solvents. If necessary, wipe the whole surface with a clean, soft cloth wrung in soapy water. If vacuum cleaning, use a soft brush nozzle to avoid scratching the surface. Pay attention to the migration of dyes.

#### **TABLE TOPS**

Do not use abrasive cleaners on any table top.

#### **WOOD EDGE & SOLID WOOD TOPS**

To care for wood edge and/or solid wood tops, GAR Products® recommends using furniture polish only. Do not use any water based cleaners or cleaners containing silicone on wood edge or solid wood tops.

#### LAMINATE TABLE TOPS

As with any fine wood furniture, reasonable care must be exercised in daily cleaning. Please use only slightly water-dampened soft cloth with a mild non-abrasive detergent. DO NOT USE AMMONIA, DEGREASERS, SILICONE, BLEACH OR ABRASIVE CLEANERS. Spills of ANY liquid must be wiped dry immediately. A non-wax build up polish may be used for added protection. Excessive, prolonged exposure to direct sunlight, high temperatures and/or high humidity may cause damage to the finish or the wood itself. Scratches may be repaired by using a colored wax repair stick. Care for this product as you would care for your fine household furniture. Improper care will void any manufacturer's warranty on this product.

#### T-MOLD/SELF EDGE TOPS:

Do not use abrasive cleaners on laminate tops. GAR Products® recommends using a soft cloth and glass cleaner.

#### **URETHANE TOPS**

Urethane is impervious to most chemicals and is alcohol proof. Stubborn stains may require use of a stronger solvent. Although solvents will not harm the surface of most plastic laminates, they will attack the adhesive which is used to bond the laminate to the core, and they are flammable.

#### WILSONART SOLID SURFACE

For day to day cleaning, warm soapy water or non-abrasive household cleaners such as glass cleaner, Fantastik®, Formula 409® or commercially available solid surface cleaners will remove most residues. Then rinse and towel dry the surface to prevent spotting especially in areas with hard water. For a final touch, you may apply Protect All Shine Plus<sup>TM</sup> to your countertop for a clean, dry professional appearance.

For stubborn residue that will not come out with day to day cleaning methods, apply an abrasive cleaner like Bon-ami®, Comet® or Ajax® and a damp sponge, buff in a circular motion. Then rinse and towel dry.

#### **WILSONART THINSCAPE**

To clean the surface, use a damp cloth or sponge and a mild soap or detergent. Rinse thoroughly with warm water, and wipe dry. Difficult stains such as coffee or tea can be removed using a mild household cleaner/detergent and a soft bristled brush, repeating as necessary.

#### **OUTDOOR USE**

None of our indoor products are suitable for outdoor use, unless specifically stated in our catalog.

#### **OUTDOOR CARE**

#### **TEAK**

All of our teak is naturally grown and will have varying color and grain in each piece. Proper care and cleaning will enhance and maintain the natural beauty of the wood. Left by itself, the teak will develop a silver-gray patina. For general cleaning when removing dirt, moss and surface stains, use a sponge or a soft cloth and clean with a solution of, 2 ounces of dishwashing soap with, 8 cups of lukewarm water. Make sure to rinse completely with clean water and allow time to air dry before use. For further care and protection of your teak furniture use Golden Care protection products. Please note that retreatment will be required as all protective finishes are not permanent.

#### **METAL CARE**

In general our metal furniture can be cleaned with clean water or non-detergent soap. Abrasive sponges, detergent, abrasive powders should not be used to clean our metal furniture. For dirt, crayons, black scuff marks or any similar marks that are more heavily ingrained, a window-cleaning product that contains alcohol or specific product such as star brite Multi-Purpose Cleaner should be used.

#### **ROPE WEAVE**

We recommend to simply wash it with mild soap and water solution, rinse and allow to dry thoroughly.

#### STAINLESS STEEL

Scratches in stainless can be buffed out with Scotch-Brite™ pads or very fine grit sand paper (steel wool is not recommended due to the mild steel fibers contaminating the stainless surface, therefore leaving rust colored stains). It is also recommended

that the surface of the grain is followed in the same direction when buffing out scratches. Stainless, although very resistant to corrosive environments, does require periodic care and maintenance. Cleaning is necessary on all grades of stainless to prevent corrosive particles from gathering in the grain of the stainless surface. This results in a rust colored staining. Weekly cleaning with a good stainless cleaner will keep the surface free from corrosive particles. In environments where there is salt, chlorine or air pollution present, a weekly cleaning with water and liquid detergent followed by drying will keep the stainless surface free from contamination. If staining has occurred, the surface can be cleaned with a nonabrasive kitchen cream cleanser and a light coat of a good quality protective spray such as Fluid Film® can be applied.

#### SOLID SURFACE ACRYLIC

GENERAL CLEANING: All table tops and fabricated sheet goods can be cleaned by using soap and water. Apply soap and water with a sponge or damp cloth, then towel dry to eliminate water spots.

PROTECTING THE SURFACE: All table tops and fabricated sheet goods are resistant to most household cleaners. Table tops and sheet goods should NOT be exposed to chemicals such as paint remover, metal cleaner, oven cleaner, acetone, nail polish remover, abrasive cleaner, and acid drain cleaner. Protect the finish with acrylic polish such as Countertop Magic® or furniture polish.

All surfaces should NOT be exposed to direct heat. The use of insulated mats underneath hot objects will avoid damage to your surface.

#### **CAMPAIGN SERIES - (FERRARI BATYLINE)**

- 1. Apply mild soap and water on the surface to clean.
- 2. Leave on for 2 to 3 minutes.
- 3. Scrub the surface repeatedly making a circular motion and not front to back.
- 4. Leave on for about 1 minute.
- 5. Remove the deposits with a moist sponge or rinse with clear water.

#### SUNBRELLA®

CONTENTS: 100% solution dyed acrylic

WEIGHT: Approximately 8.0 ounces per sq. yard

WIDTH: 54 inches

FLAMMABILITY: Meets California Technical Bulletin #117 Sec. E (CS-191-53)

CLASSIFICATION: 1 Normal flammability

ADDITIONAL INFORMATION: Solution dyed to give excellent fade and weather resistance. Made from 100% dyed acrylic fiber which is thermoplastic. DO NOT SUBJECT TO EXCESSIVE HEAT. When Sunbrella® fabric is stored, it should be cleaned, allowed to dry and stored in a dry, well ventilated area. Sunbrella® Care and Cleaning Performance moisture-resistant fabrics are extremely easy to keep clean and beautiful. Proper maintenance, vacuuming regularly and rotating seat cushions frequently keeps your furniture looking good and promotes long fabric life.

GENERAL CLEANING METHODS: Brush off dirt before it becomes imbedded in the fabric, wipe up spills as soon as they occur, and spot-clean by sponging cushions with mild soap and warm water.

HAND-WASHING: Soak fabric in a solution of  $\frac{1}{4}$ -cup mild soap per gallon of lukewarm water. Use a sponge or a soft bristle brush as necessary. Rinse thoroughly with clean water. Hang and allow to air-dry. These fabrics usually air-dry very quickly.

MACHINE-WASHING: Remove cushions from cushion covers. Machine-wash fabric in cold water with mild laundry soap, or use 7 parts bleach to 3 parts cold water, hang and allow to air-dry.

SPOT-CLEANING UPHOLSTERED PIECES: Apply a light mist of mild soap and water using a spray bottle. Remove the stain with a sponge or a very soft bristle brush. Rinse with clean water and air-dry, blotting or wet-vacuuming excess water. Repeat until all soap residue is removed.

Unless these care and maintenance procedures are properly followed, and other products are used as they are intended, all warranties, both expressed and implied shall be null and void.

NOTE: Warranty may be voided if proper maintenance procedures are not followed.

## ORDERING FROM GAR

#### **QUOTATIONS**

Please contact your local GAR Products® Sales Representative for quotes. All quotations received from the factory or sales representative are valid for thirty (30) days unless extended in writing. All quotes must be reviewed by the person requesting it. GAR Products® must be notified of any errors made prior to the orders being received.

#### CUSTOM PRODUCT QUOTATIONS

Please send all custom product quote requests to custom@garproducts.com.

#### PLACING ORDERS

All orders must be sent to GAR Products® via US mail, fax or e-mailed to orders@garproducts.com. No orders will be taken verbally. Please note, we must have the following information to enter an order without delay: quantity, model, frame finish, finish type (UV or European Lacquer), fire code requirements, upholstery pattern and color, any special upholstery treatments or decorative elements (nailheads, welts, etc.) routing instructions, and desired ship date. If you require a call before or third party delivery, please supply the factory with a contact name and telephone number.

If you requested a freight estimate from the factory prior to submitting the purchase order, please include the freight estimate with the purchase order. If estimate is not included with order, the factory is not required to honor the freight estimate.

If an order is to match a previous order (i.e. finish), it must be noted on the purchase order so GAR Products® may attempt to match the finishes if inventory allows. GAR Products® will not be responsible for color/finishes variances.

#### C.O.M. (CUSTOMER'S OWN MATERIAL) YARDAGE ESTIMATE REQUESTS

This price list provides C.O.M. requirement estimates for each chair model based on a non-patterned fabric in a single color. For orders of greater than 20 chairs or orders requiring special handling of pattern/repeat matching or multi-fabric applications, please contact the factory to receive a detailed estimate specific to your particular project.

Please fax all yardage requests to the factory or e-mail to service@garproducts.com. The factory requires the following information to process a C.O.M. yardage estimate: model, quantities, upholstery width and type of material (i.e. vinyl), railroading requirements, pattern/repeat matching requests, type of pattern, vertical and horizontal repeat measurements, upholstery contacts and special requests. All estimates are based on information provided by the customer.

Actual yardage requirements and workability of the upholstery can be determined if the factory receives a sample of the C.O.M. If a sample is not received, the factory is not responsible for an increase in yardage requirements (and related charges) since some C.O.M. upholsteries may require other methods of cutting, which in turn requires more yardage. Additionally, fabrics that have stripes, patterns, distinct textures or other factors which would influence pattern layout, will require additional yardage. The factory will respond to all requests via fax or e-mail.

#### C.O.M. PRICING AND SHIPPING DETAILS

When pricing C.O.M. please price as listed in the C.O.M. column in the price guide. C.O.M.'s are applied entirely at the customers' own risk. All C.O.M.'s are to be shipped to the factory prepaid. C.O.M. orders will only be scheduled for production after the receipt of the material. Upon arrival at the factory the C.O.M. must include the customer's name, PO number and explicit instructions with reference to direction and pattern/repeat matching, as well as the correct side of the fabric to be shown. In absence of such instructions, the factory will apply the fabric in what it determines to be the best manner. GAR Products® assumes no responsibility for product which is received without instructions. GAR Products® reserves the right to refuse C.O.M. orders (or process without responsibility) where upholsteries are not suitable because of pattern, weight, width, stretch, etc. We require a sample of sufficient size of any genuine leather C.O.M. to be submitted prior to production to verify workability.

GAR Products® strongly advises against use of any upholstery that is not protected with stain resistant and/or fire retardant treatments. GAR Products® assumes no responsibility for fabric or vinyl as to wear or fire retardant, other than the fabric or vinyl manufacturer's own guarantee. GAR Products® will not be responsible for dye lot changes.

#### NOTE: Pricing Is Subject To Change

#### ORDERING OUTDOOR CUSHION COVERS ONLY

GAR Products uses a special machine to shrink the foam when stuffing our outdoor cushions. Stuffing the covers by hand is very difficult. We cannot be responsible for damages to the cover, including the zipper, when ordering replacement covers only. We offer pricing on complete cushions if needed. Contact our Customer Service dept for a quote.

#### **TAXES**

Any taxes which GAR Products® may require to pay or collect under any existing or future law, with respect to the sale, purchase, delivery, storage, processing, use or consumption of any of the material covered hereby, including taxes upon or measured by the receipts from the sale thereof, will be for the account of the Purchaser, who must promptly pay the amount thereof to GAR Products® upon demand.

#### **RESALE CERTIFICATES**

GAR Products® requires a copy of all State Resale Certificates in order to make the customer exempt from sales taxes for any states in which the resale certificates will apply. Sales made without a resale certificate will be charged the appropriate sales tax required by law. If the customer wishes to pick up at the factory, buyer must furnish GAR Products® with a valid NJ State resale certificate, a resale certificate for Non-New Jersey vendors (ST-3NR) or pay the NJ sales tax.

#### ADDITIONAL/MINIMUM CHARGES

- Custom UV Finish orders subject to Set Up and UV Finish mixing charges.

#### **HELD ORDERS**

All requests for orders to be put on hold must be sent via fax or e-mail to GAR Products<sup>®</sup>. All orders that have not been manufactured, or those that do not require the purchase of additional materials will be put on hold for a maximum of two (2) weeks. If GAR Products<sup>®</sup> is not contacted within the two (2) week period, after the initial Hold Request, GAR Products<sup>®</sup> reserves the right to cancel the order without notification. If merchandise has been manufactured or purchased, GAR Products<sup>®</sup> will delay shipment of merchandise a total of one (1) week from the originally scheduled ship date. If the customer is unable to accept delivery of merchandise or fails to respond within the one (1) week period GAR Products<sup>®</sup> will charge a storage fee. Actual fee to be advised at the time of the request. All storage fees must be paid in full prior to merchandise release.

#### **ACKNOWLEDGMENTS**

If there is any discrepancy between information on an acknowledgment sent by GAR Products® to a customer and the customer's purchase order, the customer must notify GAR Products® immediately; otherwise GAR Products® accepts no responsibility for manufacturing the order in accordance with the acknowledgment. If there is a discrepancy in the acknowledgment, please fax or e-mail changes to GAR Products® referencing the GAR Products® order number and the customer's purchase order number.

#### CHANGES/CANCELLATIONS

Orders cannot be changed or canceled without approval from GAR Products®. All changes or cancellations must be received via fax or e-mail. The customer is responsible for all costs incurred prior to the receipt of the change/cancellation; including UV finishing, custom finishes, cut or applied upholstery, laminate, or other materials and labor. A 2% Administrative fee will apply to all cancelled orders that GAR Products® is notified of after 24 hours of receipt of the customer purchase order. If only part of an order is to be cancelled, the fee will only apply to the items being cancelled. Special Order product cannot be cancelled once the merchandise is released from credit.

#### **PACKAGING**

All of GAR Products® boxes and packaging have passed ISTA-IA certification by a national testing laboratory. All packaging is custom built on site to fit each order using our state of the art equipment.

#### NOTE: Pricing Is Subject To Change

## SHIPPING AND CREDIT INFORMATION

#### **SHIPPING**

All prices (U.S. Funds) are F.O.B. factory. All orders placed with GAR Products® will be shipped PrePaid and Add via one of our preferred carriers. Due to the volume of packages that GAR Products® ships daily, it is to the customer's benefit to allow us to select a carrier on their behalf. GAR Products® reserves the right to refuse a customer's requested shipping method. Under no circumstances will GAR Products® assume responsibility for any differences in freight rate charges, C.O.D. charges, re-delivery charges, interline charges, etc. Any orders shipped late (i.e. beyond the factory's scheduled delivery date), are free from any penalties lodged by the buyer unless agreed to in advance in writing with GAR Products®. If you have a preferred carrier please note it on the purchase order and we will try to accommodate your request. If no carrier is specified or named on the customer's purchase order, GAR Products® will ship merchandise by one of the factory's preferred carriers. All orders that ship through 3rd party carriers will become the sole responsibility of the customer. All claims and tracking will be conducted between the carrier and the customer; not GAR Products®.

#### **FREIGHT ESTIMATES**

As a courtesy to our customers, GAR Products® offers Freight Estimates via our preferred carriers. All requests for Freight Estimates must be sent via fax or e-mail. Please note these are only ESTIMATES and are based on the current freight rates. All rates including fuel surcharges and trucking rates, are subject to change at the carrier's discretion. Due to fluctuating fuel surcharges and trucking rates, the actual freight may be higher then the Freight Estimate. In the event that the actual freight is higher than the estimate, the customer is responsible for the freight bill in full. If the customer has per-negotiated rates with one of our preferred carries, the customer's discount will apply and any estimate will be invalid, even if GAR Products® estimate is lower. Please submit your freight estimate with the corresponding purchase order to ensure the best freight rate. GAR Products® will not honor freight estimates that re not attached to the Purchase Order.

#### **NEW CUSTOMERS**

All new customers have Prepaid Terms until GAR Products® receives and approves a completed Credit Application. It is at the discretion of GAR Products® to determine if a customer will be offered open terms. All credit information and replies supplied to GAR Products® will be kept in the strictest confidence.

#### PREPAID/C.O.D. CUSTOMERS

All Prepaid and C.O.D. orders require a 50% deposit in U.S. funds to put an order into production. The order will remain ON HOLD until funds are received. Once a deposit is received, the order will be assigned a scheduled ship date and the balance of the funds will be requested prior to that date. If funds are not received by GAR Products® prior to the scheduled ship date, the order will be subject to daily storage charges (see section on Held Orders) that will be due with the balance prior to shipping. Prepaid funds will be accepted as cash, check, money order or wire transfer. If payment is made within 10 business days of shipment, payment must be by certified check, money order or wire transfer only. We accept Visa, Matercard and Amex as a payment method. Special order deposits are non-refundable.

#### **NET 30 DAY CUSTOMERS**

The billing period for Net 30 Day customers is from the actual ship date from the factory. All orders are subject to credit approval. It is the responsibility of the customer to request an increase in their credit line.

#### **DEDUCTIONS**

No deductions will be allowed from our invoices without written authorization from GAR Products<sup>®</sup>. All authorized deductions should reference the customer's original purchase order and the GAR Products<sup>®</sup> invoice number.

#### COLLECTIONS

In the event GAR Products® must use any collection agency, attorney or courts to effect collection, the purchaser is responsible to pay all reasonable and actual collection agency fees, attorney fees and court costs incurred by GAR Products®. As well as maximum interest allowed by law.

NOTE: Crating Fees May Apply

NOTE: Pricing Is Subject To Change

# FREIGHT, REFUSALS AND RETURNS

#### FREIGHT DAMAGE - CUSTOMERS CARRIER

If the customer requests a specific carrier on their purchase order and it is not one of GAR Products® preferred carriers, the customer takes full responsibility for all freight issues including contacting the carrier, damages, loss, mis-shipments, additional freight charges and claims.

#### FREIGHT DAMAGE - GAR PREFERRED CARRIER

If merchandise has been received damaged, it must be signed for at the time of delivery. GAR preferred freight carriers will not honor concealed freight damages unless the shipment is signed for as damaged at the time of delivery. This includes deliveries to an installer or warehouse. All shipments signed for as damaged, must be reported to GAR within 1 week. Once notified, GAR Products® will work with the customer for repairs or replacements of damaged merchandise at no additional expense to the customer. If the shipment is not signed as damaged, GAR Products® cannot submit a freight claim and will not be responsible for damages.

#### **REFUSALS - GAR PREFERRED CARRIER**

If product is damaged upon arrival and is noted on the delivery slip, GAR Products® recommends refusing the damaged product. If the product is refused due to obvious freight damage, the product will be returned to the factory, inspected upon arrival, and repaired or replaced at no additional expense to the customer. GAR Products® will submit all claim paperwork.

Refusal to accept goods from the carrier does not relieve the customer from the responsibility for payment and filing claims in the prescribed manner.

#### **RETURNS**

Returns will be accepted at the sole discretion of GAR Products<sup>®</sup>. Returns without a GAR Products<sup>®</sup> return authorization number will be refused. Return authorization numbers are only obtained through the returns department. All authorized returns must be returned to the factory freight prepaid by the customer.

In the event the returned product is damaged in transit to the factory, the returns manager will contact the customer immediately. The customer will be responsible for the damaged merchandise and for making any claims with the carrier.

Any product returned without an authorization number or freight collect will be refused. Returns will only be accepted within 14 business days of the customer's receipt of the product. It is the responsibility of the customer to contact GAR Products® within 14 business days of the receipt of product.

All returns will be subject to a 30% restocking fee. Since GAR Products® customizes all upholstery work, charges for padded seat work will apply in addition to the 30% restocking fee. Charges for upholstery work will be based on the cost of materials and labor. GAR Products® will not accept any returns for pad seat/padded back or uv finished merchandise. All credits for returned merchandise will not reflect any restocking and/or upholstery charges. These charges will be billed separately and are the full responsibility of the customer.

## **FINISHES**

#### LACQUER FINISH

GAR Products® offers many models with a Lacquer Finish which is pre-finished overseas. The lacquer used on our wood seating is a quick-drying solvent based lacquer that contains nitrocellulose, a resin obtained from the nitration of cotton and other cellulose materials. Easy to apply, it gives a smoother more decorative surface than water-based coating systems and can be buffed to a beautiful high gloss once cured. Hard and durable, it remains the choice finish material of wood furniture due to its quick drying nature and its ability to blend well with the natural grain and coloring of different woods.

NOTE: Lacquer Finishes vary from model to model based on the country of origin of our frame builder. Due to the difficulty in maintaining lacquer finish consistencies across multiple sources, GAR Products® will not be responsible for finish variances.

#### **ULTRA VIOLET (UV) FINISH**

Our patented ultraviolet finishing process (UV), (sealer and top-coating applied to our furniture), is among the most advanced and environmental friendly available on the market. It sets the standard for environmental responsibility. The finishes used by most furniture manufacturers emit volatile organic compounds (VOCs), which can be toxic to humans when they escape into the environment as airborne pollutants. At GAR Products®, we use specially formulated water-based finishes that are cured in seconds with ultraviolet energy, that capture 97% of the (VOCs).

UV coatings are used in the golf industry on clubs and balls, and in the cosmetics industry on caps and lids. UV coatings are also used on cellular telephone housings, hardware fixtures, doors, plumbing and automotive plastic headlight lenses. UV coatings work when high intensity light energy is absorbed by photo initiators which activate free radicals resulting in activated chemical components in the coatings formulation. The end result converts a liquid to a solid in seconds.

GAR Products® offers a variety of standard house finishes, from traditional wood finishes to unique and innovative colors. As an added benefit to customers, GAR Products® also offers custom UV color matching. We can match any existing wood work in any application with the exception of solid white. If you are interested in more information regarding custom UV color matching please feel free to contact your GAR Products® sales representative or our GAR Customer Service Team.

#### **BENEFITS OF UV FINISH**

- More Durable And Longer Lasting
- Higher Abrasion And Stain Resistance
- Smoother, Silkier Feel
- Enhanced Color Clarity And Depth
- Inherent Water Resistance
- Environmentally Safe
- Instantaneous Cure Time

NOTE: Some UV colors are listed as premium options due to the amount of touch up time required to run. There is an additional \$70 list charge per piece using a premium UV finish.

#### **UV FINISH COLOR OPTIONS**

NOTE: Wood is a product of nature, which varies from tree to tree and piece to piece. The beauty of wood is this natural variety. The samples displayed are digital photographs of our "UV" house finishes shown on European Beechwood. Actual finish samples and products may vary. Wood samples are available upon request.

### **ENVIRONMENTAL STATEMENT**

GAR Products® is a company born in tradition and has distinguished itself as a source for modern day needs. By integrating traditional manufacturing with unique, green initiatives we have set ourselves apart from our competitors. We design, develop and manufacture with a constant awareness of any and all environmental concerns. GAR Products® is respectful of the consumer's desire to contribute to the protection of the environment. It is our responsibility to offer products that meet this need. Without the understanding of today's ecological issues it would be impossible for a company to forecast the market's demands.

From the beginning of our manufacturing process to its end, we consider the environmental impact of every step we take. In design, material, construction, energy use and packaging, we are committed to making the best choices for our planet.

Since 1956, GAR Products® has been a family owned and operated corporation specializing in quality seating, table tops and table bases for all levels of hospitality and design industries. As GAR has entered its 68th year of family ownership, our commitment to protecting the environment continues by providing an expansive product line along with responsible manufacturing processes.

GAR Products® replaced it's factory lighting with energy efficient fluorescents equipped with sensors. The factory sends foam scraps back to the manufacturer to be recycled and all scrap metals, cardboard and mixed paper are being recycled. Where paper is needed, 100% recycled paper is being used and we are currently operating as a paperless office. We recycle cardboard by shredding it and use it as extra protection for packaging.

#### GAR PRODUCTS® HAS BEEN CERTIFIED

GAR Products®' in-house Ultra Violet (UV) Finishing line is the most uniquely automated, three dimensional Ultra Violet finishing system in the industry. By combining UV technology with an automated electrostatic application, GAR Products® offers the finest custom finishing available. Our exclusive UV Finish consists of 97% solids, all of which are captured in our system. As a result of our environmentally friendly operations, GAR Products® has been certified under the NJ DEP's "Green Start Program".

The New Jersey Department of Environmental Protection (NJDEP) has developed a compliance assistance program known as Green Start to pro-actively help businesses and public employers comply with their environmental obligations. The program assists facility owners and operators in interpreting environmental regulations and evaluating compliance in the areas of air and water pollution control, solid and hazardous waste management, pesticide control, Right-to-Know (RTK), Toxic Catastrophe Prevention Act (TCPA), and spill containment plans under Discharge Prevention, Containment and Countermeasures (DPCC). <a href="https://www.nj.gov/dep/enforcement/greenstart.htm">www.nj.gov/dep/enforcement/greenstart.htm</a>.

#### GAR PRODUCTS® USES SUPPLIERS WHO SUPPORT THE SAME VISION

Since GAR Products® obligation is responsible manufacturing, our need for suppliers with the same vision is extremely important. We have built long-term relationships with factories that contribute to the regeneration of Beechwood forests. GAR Products® is also forming alliances with companies whose statement on the Environment is similar to our own. Our in house resource library has been dedicated to vendors who incorporate sustainable fabrics from recycled material, PVC free vinyl, environmentally friendly Crypton ®, and other Green options. We have recently launched a sampling program with Wilsonart, a Greenguarded company, in order to provide matching laminates with our standard Ultra Violet finishes to the A&D community, hotel groups, and restaurant dealers. In the upcoming year we will strengthen our green initiatives by providing our customer with an increased number of options in relation to foam, fabric, and surfacing material choices.

#### GREAT CONVERSATIONS START HERE™

#### **FSC CERTIFIED LUMBER**

Forest Stewardship Council (FSC) is a non-profit organization devoted to encouraging the responsible management of the world's forests. FSC sets high standards that ensure forestry is practiced in an environmentally responsible, socially beneficial, and economically viable way. Products bearing the FSC logo, which guarantees that the wood from a certified well-managed forest, are available across the world from a variety of mills, manufacturers, and distributors.

Sustainable development marries two important themes: that environmental protection does not preclude economic development and that economic development must be ecologically viable now and in the future. Common use of the term "sustainability" began with the 1987 publication of the World Commission on Environment and Development report, *Our Common Future*. Also known as the *Brundtland Report*, this document defined sustainable development as a "development that meets the needs of the present without compromising the ability of future generations to meet their own needs". This concept of sustainability encompasses ideas, aspirations and values that continue to inspire public and private organizations to become better stewards of the environment and that promote positive economic growth and social objectives. The principles of sustainability can stimulate technological innovation, advance competitiveness, and improve our quality of life.

#### PATTERN MATCHING

When quoting a project, if pattern matching is requested without knowledge of the pattern, a standard charge will be applied. This will have to be reviewed by the upholstery department once the upholstery has been selected.

If a pattern requires hand cutting instead of by our automated cutting machine, additional charges for hand cutting will apply.

\*Vinyl fabrics are not resistant to denim dye, graffiti, and ink marks unless they are clearly marked with Writers Block technology.

# **Indoor Seating**

GAR Products® has created hundreds of seating options for any application. The seating designs are grouped into five major collections: Basic, Classic, Signature, Design or Upholstered Goods, each representing various price and aesthetic categories.

GAR Products® now offers custom design support, and has become an indispensable partner to designers in an environment of tough budgets and operational constraints. Working with GAR Products® allows a designer's vision to complete the journey from inspiration boards to installation without compromising quality.

For additional information, quoting or general custom related inquiries we have created a dedicated e-mail contact: custom@garproducts.com.

#### **WOOD EDGE TOPS**

GAR Products® offers a wide variety of mitered Solid Wood Edge Table Tops available in Oak, Maple or Ash wood species. Our tops are manufactured with a choice of either a laminate or veneer top surface specified by the customer and bonded to a 45 lbs. high density particle board with a phenolic backing sheet. All wood edges are available in GAR UV Finishes, standard with a catalyzed conversion satin sheen finish. Custom finishes available upon request. Please note the edge wood grains will vary slightly from the European Beechwood species used for GAR wood seating. All Wood Edge Tops are FOB PA.

\*NOTE: There is a 1/2" size tolerance on all of our wood edge table tops. If you need your tops to be the exact same size there is an additional 2% increase. This request needs to be on the order when submitted.\*

#### **SOLID WOOD TOPS**

GAR Products® offers Solid Wood Table Tops in Butcher Block and Plank construction and of either Oak or Maple wood species. Solid Plank Wood Tops are constructed with wood planks in equal length and random widths, laid edge to edge in a variety of top sizes in either a 1 1/4" or 1 3/4" thickness. Continuous Butcher Block Solid Wood tops are constructed with uniform widths of solid wood laid back to back in a continuous pattern. Continuous Butcher Block Tops are available in a variety of top sizes with either a 1 1/2" or 1 3/4" thickness. Choice of GAR UV or Lacquer Finish colors are standard on all Solid Wood Table Tops, with custom stains available upon request. All solid wood tops come standard with a durable Catalyzed Conversion Varnish. Solid Wood Tables are FOB PA or WI.

\*NOTE: There is a 1/2" size tolerance on all of our solid wood table tops. If you need your tops to be the exact same size there is an additional 2% increase. This request needs to be on the order when submitted.\*

#### SYNTHETIC EDGE

GAR Products® offers three types of synthetic edge table tops: 3mm PVC Edge, Vinyl Bullnose or Special Vinyl Bullnose edges, available in a variety of colors. Our Synthetic Edge tops are manufactured with either a laminate or veneer surface specified by the customer, and bonded to 45 lb high density particle board with a phenolic backing sheet. All Synthetic Edge Table Tops are FOB PA.

#### METAL EDGE

GAR Products® offers two styles of metal edge table tops: Smooth or Corrugated, available in either a Satin or Polished finish. Our Metal Edge tops are manufactured with either a laminate or veneer surface specified by the customer and bonded to 45 lb high density particle board with a phenolic backing sheet. All Metal Edge Table Tops are FOB PA.

#### **SELF EDGE**

GAR Products® Self Edge Table Tops are an economical solution to table tops. Available with a variety of edge options, and with the choice of either a veneer or laminate surface and edge, these tops are the perfect solution for a consumer on a budget. All Self Edge Table Tops are FOB PA.

#### **PADDED**

Upgrade your dining area with GAR Products® Padded Tops. Padded Tops help eliminate clatter of china, stemware and silverware - offering your guests a quiet, fine dining experience. Padded Tops are constructed of a particle board substrate and 1/4" thick foam; a custom plywood substrate available upon request. All square to round Padded Table Tops are standard with two table top hinges and one slide bar per leaf. Please note that round table tops 54" diameter and larger will have a seam in the padding. All Padded Table Tops are FOB NJ.

#### PADDED TABLE TOPS

Upgrade your dining area with GAR Products® Padded Tops. Padded Tops will help eliminate the clatter of china, stemware and silverware - offering your guests a quiet, fine dining experience.

Padded Tops are constructed with a particle board substrate. If plywood substrate is required call for additional costs. All round tables 54" and larger are constructed with plywood.

All square to Round Padded Table Tops come standard with Piano hinges and one slide bar per leaf. Please Note: Round Table tops larger than 48" will have a seam in the white padded vinyl covering.

THICKNESS: 1.125"
\*NOTE: Crating fees apply.\*

Tops are FOB NJ.

#### STIJL TABLE TOPS

**CONSTRUCTION:** Frame constructed out of powder coated aluminum. Table top constructed out of Wilsonart Solid Surface. **FINISH:** Pricing includes matte finish.

CARE AND MAINTENANCE: For day to day cleaning, warm soapy water or non-abrasive household cleaners such as glass cleaner, Fantastik®, Formula 409® or commercially available solid surface cleaners will remove most residues. Then rinse and towel dry the surface to prevent spotting especially in areas with hard water. For a final touch, you may apply Protect All Shine Plus<sup>TM</sup> to your tabletop for a clean, dry professional appearance.

#### STIJL TABLE TOPS

**CONSTRUCTION:** Frame constructed out of powder coated aluminum. Table top constructed out of Wilsonart Solid Surface. **FINISH:** Pricing includes matte finish.

CARE AND MAINTENANCE: For day to day cleaning, warm soapy water or non-abrasive household cleaners such as glass cleaner, Fantastik®, Formula 409® or commercially available solid surface cleaners will remove most residues. Then rinse and towel dry the surface to prevent spotting especially in areas with hard water. For a final touch, you may apply Protect All Shine Plus<sup>TM</sup> to your tabletop for a clean, dry professional appearance.

\*NOTE: Crating fees may apply.\*

\*NOTE: Pricing listed below is based on using one color only. If you wish to mix colors please call factory for custom quote.\*

\*NOTE: Please refere to the Wilsonart Solid Surface section for selection of colors in the different series.

\*NOTE: Inserts are fixed in place, they are not removable. Inserts are placed as close as possible to frame edge\*

<sup>\*</sup>NOTE: The following sizes are special order: 24"x24", 30" Dia, and 42" Dia.

#### WILSONART SOLID SURFACE

**CONSTRUCTION:** Made with acrylic resins, fire-retardant fillers and proprietary coloring agents that are homogeneous, with uniform color throughout their thickness. Standard with 3/4" MDO plywood substrate.

FINISH: Pricing includes matte finish.

THICKNESS: 1/2"

EDGE PROFILE: Standard with eased edge. (Additional edges available by request)

CARE AND MAINTENANCE: For day to day cleaning, warm soapy water or non-abrasive household cleaners such as glass cleaner, Fantastik®, Formula 409® or commercially available solid surface cleaners will remove most residues. Then rinse and towel dry the surface to prevent spotting especially in areas with hard water. For a final touch, you may apply Protect All Shine  $Plus^{TM}$  to your tabletop for a clean, dry professional appearance.

\*NOTE: Non GAR spider prep fees apply were applicable. (Spider sample required for set up.)

- \$250 net for each non GAR spider setup.
- \$75 net for duplicate of non GAR spider, per top size.
- \$75 list ea. for umbrealla hole add on.

\*NOTE: These tops have shown that they can possibly warp if used in full / direct sunlight. Use in full / direct sunlight will void the warranty.\*

\*NOTE: Crating fees apply.\* Tops are FOB NJ

\*NOTE: If you're looking to purchase one (1) tabletop, please call factory for quote.\*
