FEATURES

Steady Brew

An evolved heat-exchange system that works efficiently without sacrificing performance. By keeping the water temperature stable during extraction, Steady Brew guarantees excellent thermal stability, reliability, and repeatability.

Barista-friendly Interface

The Crono introduces upgraded brewing buttons as well as a display screen above each group, enabling baristas to view shot times as well as volumetric readings while programming and a progress indicator while cleaning.

LED Work Area Lights

Bright and functional LEDs add visibility for espresso and steam workflows. Now standard on all Classe models.

Tall Version

While maintaining the same overall dimensions, Tall models have raised groupheads to accommodate to-go cups up to 5.7” tall plus an extendable tray for standard height cups.
